Arcc, b [Jan, 08 - Feb, 09]: Served as the primary web developer on company's flagship product

Projects:

These are few projects which I covered in my Current and Previous Company.

Project: Townfetch. What's going on in your town? What's trending now? What was the most trending business 4 weeks ago? Which restaurant should you try in your town? The answer to all these questions and more is with TownFetch. Basically It's aggregate business data, group business data and then sort it into a logical view so consumers can come find exactly what is trending in their local communities. This website will sort the business by most social activity base on a time period.

URL: <http://www.townfetch.com>
